*Tried Everything?*

**ENAR Therapy** electronically treats problem areas with an acupuncture type Electro-Neuro-Adaptive stimulation, but without any needles ENAR prompts the body to help correct itself to quickly **Relieve Pain and Rejuvenate Function**. ENAR is non-invasive and may have a profound effect on both acute and chronic complex painful conditions.

Patients often report results from their first treatment however difficult problems may be slower to resolve see \* [www.enar.com.au/research/](http://www.enar.com.au/research/)
