

Multiple layers in BioBlanket are there to reflect bio-energies back within, and also to protect from external energy emissions incl EMF. These layers are also built into all InfraBeds ® and Posture~Pillows ®

By placing BioBlanket over your InfraBed you multiply infrared and energetic transfer by using Radiation and Conduction, plus, Reflection and Convection.

Big king-double BioBlanket (Cocoon) 240 x 200 cm. Has Yin passive side plus Yang active side. Incl Zip-up quilted cotton Cover, and a storage bag.

*“Get coccooned in your big BioBlanket around you, under, or over you, anytime. Maximum recuperation effects are achieved when fully wrapped, head to toe.”*

# **BioBlanket**® Energy Reflection Therapy

**BIOBLANKET** ® was developed with double Reflective layers, plus a Negative Ions layer to help induce the body and mind to rest, recover, rebalance and re-energise. BioBlanket is the 3rd generation ET Energy BioBlanket and it has evolved as a multi-layered holistic bio-energetic reflective feedback blanket with two distinctly different sides = ( Yin + Yang ) and **4** different **Purposes**

- 1** to help PROTECT the body by deflecting away external energy influences
- 2** to help REFLECT Back to the body its own energy output = BioFeedback
- 3** to help BALANCE the body's multiple energies by establishing a Cocoon
- 4** to help RESTORE core body temperature (eg. BioBlanket over InfraBed)

Whether you use BioBlanket by itself, Yin or Yang side, up or down, BioBlanket gives energy reflection internally and deflection externally.

*How does it feel? “ The first thing you feel is complete, pleasant protection. You may feel warmth or subtle energy shifts, but these pass as you relax. Within minutes you feel naturally more centred and balanced and well.”*  
NB BioBlankets are NOT ARTG listed therapy devices so no clinical claims are made.

## BioBlanket Multiple Layers

- 6 COVER : External Quality Cotton Zip-up
  - a) side - white cotton sheet (logo stitched)
  - b) side - white cotton heavy quilted sheet
- 5 Fifth layer : Bamboo Carbon Fibre
- 4 Fourth layer : Non-woven fabric emits **Negative Ions**
- 3 Third layer : High Quality Reflector Foil facing IN
- 2 Second layer : High Quality Reflector Foil facing OUT

**Yang side**

Layers  
2, 1 =  
**Yin side**

*Protecting  
Restoring  
Balancing*

BioBlankets work by deflecting away external energies that may influence the body and by reflecting back onto itself the body's own bio-energies.

Multi-layers in the BioBlanket are designed to prevent our own energetic emissions from dissipating outwards and so these same multi-layers reflect bio-emissions back onto the body, prompting self-regulation and balance.

Each BioBlanket has two sides, a **Yin passive** side, and a **Yang active** side. There's an extra layer that is infused with Negative Ions on the **Yang side**. Depends on the user which is more preferable. Both sides reflect fully.

2 BioBlanket Sizes  
King Single 120 x 200 cm  
King Double 240 x 200 cm
